

# BioChlor 500

## Effervescent Chlorine Tablets

- ▶ BROAD SPECTRUM OF ACTIVITY
- ▶ EFFECTIVE AGAINST BACTERIA, FUNGI, VIRUSES & SPORES
- ▶ A HIGHLY EFFECTIVE DISINFECTANT IN TABLET FORM FOR EASE OF USE
- ▶ IDEAL FOR GENERAL DISINFECTION & AT LOWER STRENGTHS FOR HEADER TANKS & ANIMAL DRINKING WATER

### APPLICATION

Keeping water systems clean and disease free during the crop is a critical element in your farm's biosecurity – BioChlor 500 tablets can help reduce the levels of bacteria and fungi in your water systems throughout your crop, therefore keeping disease challenge low. For specific advice on your farm situation please talk to one of our team who can advise on all aspects of chlorine treatment, acidification and terminal clean-out of your water system.

### INSTRUCTIONS FOR USE

Always mix a fresh disinfectant solution every 24 hours or if solution is visibly dirty. Warm water (not Hot) will speed up the tablet dissolution time and improve disinfection.

### SUITABLE FOR:

Poultry, pigs, game birds, cattle and horses.

### PACK SIZE

550 Tablets/Bucket.

Use biocides safely. Always read the label and product information before use.
