

BioQuat

Quaternary wash

- ▶ ABLE TO COPE WITH HEAVY CONTAMINATION
- ▶ SAFE TO USE ON MOST SURFACES
- ▶ EFFECTIVE WASHING OF ALL LIVESTOCK HOUSING

GENERAL PROPERTIES

BioQuat can be used with all classes of livestock for cleaning and sanitizing buildings and equipment. Bioquat is used as a pre-wash at a low dilution for the removal of heavy soiling, or can be used at a high dilution during wash down following foaming, prior to terminal disinfection. A synergistic blend of quaternary ammonium compounds, surfactants and sequestrants.

INSTRUCTIONS FOR USE

Bioquat can be applied manually or via a pressure washer or foaming lance as a pre-wash or for wash down

Pre-wash dilution 1:250

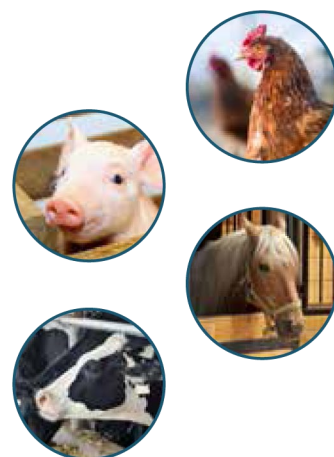

Wash down, dilution 1:1000

SUITABLE FOR:

Poultry, pigs, game birds, cattle and horses.

PACK SIZE

5 litre, 25 litre, 200 litre & 1000 litre.
